Horny's Mineral Blend LLC, Jenison, MI 49428

Horny's Big Buck Blend Premium Minerals

A premium mineral for deer, elk and other wildlife, not for sheep.

Guaranteed Analysis:

Calcium	Min 18%	Max 23%
Phosphorus	Min 8%	
Salt	Min 22%	Max 26.5%
Selenium	Min 8.5 ppm	

Other Trace

Minerals Contained:

Cobalt
Copper
Iron
Manganese
Magnesium
Potassium
Zinc

Ingredients:

Di-calcium phosphate, salt, calcium carbonate, molasses products, selenium, manganous oxide, ferrous carbonate, magnesium oxide, copper oxide, zinc oxide, calcium carbonate and red iron oxide.

Feeding Instructions:

For best results offer Horny's Big Buck Blend year around, replenishing every 3 months or as needed to provide essential mineral nutrients which support optimal growth and nutrition. We recommend you mix HBBB with the top few inches of the soil which is cleared of vegetation and debris or you can simply pour it out over a stump or ground and walk away. Animal use and weather will determine how often you should refresh. Always consult local game laws and regulations before use.
